DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, 28-35, 41-60, 77-84 and 90-98, drawn to remote control for locally operating a data recording with two reserve modes.

Group II, claim(s) 12-21 and 61-70, drawn to downloading start/completion request command with two reserve modes.

Group III, claim(s) 22-27 and 71-76, drawn to reserve request command for remote control.

Group IV, claim(s) 36-40 and 85-89, drawn to downloading start/completion request command and reserve request command.

2. The inventions listed as Groups I, II, III and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: They are subcombinations of each other. Groups I and II has two reserve modes, while Groups III and IV do not reserve two different ways. Group I and III has local operating while Group II and IV just has a start/completion request.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
